
C4 NEWSLETTER

(COLLEGE, CAREER, COMMUNITY, & CITIZENSHIP)

Leadership

We spent a week discussing strengths and interests of each student. We discussed what their goals were and what they wanted to accomplish by the time they graduated from high school. We have some very smart and driven students!

Study Habits Unit

Study skills! We spent some time talking about what things get in the way or distract us from effectively studying. They all agree technology and being tired distracts their study time. Every student came up with tips that will help them be less distracted and more effective in their study skills.

Learning Styles

We learned about 3 different learning styles (auditory, visual, and tactile) and the students completed several small assessments to see what their learning style is. Make sure you ask your child about their learning style!

Community-Urban, Suburban, and Rural

The C4 classes learned about three different communities. Urban, Suburban, & Rural! They learned about these communities through videos and discussion. They learned what attributes made up the communities and what made them different and what made them similar.

For the last three days they have been busy creating communities in small groups. The students were given large butcher paper and other supplies and have been very busy drawing, coloring, creating, and using teamwork to design their community!

Make sure you ask your child about their community!

Upcoming Events

- 9/22-9/24 Compare and research colleges
- 9/25 No school
- 9/28 College Unit
- 10/12 Conferences

Please let me know if you have any questions or concerns!

Thank you!
