Code of Conduct:

Rights and Responsibilities for Students, Families, and Staff

Foreword

This handbook is a guide to student behavior. The District 742 Board of Education creates and adopts policies to guide the actions of everyone in the district. The Superintendent develops procedures to show how these policies will be implemented in District 742, and principals and program administrators can then add specific school guidelines and expectations. Teachers and other staff then work with students to set and follow the expectations for how they will work together in each classroom. Adult staff members are held to high standards of behavior and are subject to all applicable laws, Board of Education policies, and Human Resources’ rules and practices.

The rules and regulations regarding student behavior and discipline in this handbook fulfill the Board of Education’s policies as stated in District 742 Board Policies [413](#), [503](#), [504](#), [506](#), [514](#), [524](#) and [Minn. Stat. § 121A.55\(a\)](#).

This handbook applies to incidents and situations that occur on school premises, on school district property, at school functions or activities, on school transportation, or on school computers, networks, forums, and mailing lists. This handbook may also apply to incidents that occur off school premises to the extent that it substantially and materially disrupts student learning or the school environment.

Special thanks to St. Paul Public Schools and Minneapolis Public Schools for their assistance in the format of the Rights and Responsibilities Handbook.

September 2022

Dear School Communities:

As we enter the 2022-2023 school year, we are preparing to support students, families, staff, and community in ways that reflect our core values. We will continue our mission to create a safe and caring climate and culture in which we engage, inspire, educate, prepare, and empower all learners in partnership with their surrounding community to be successful in today's and tomorrow's society.

The Code of Conduct: Rights and Responsibilities handbook, guides our work in creating and maintaining healthy learning environments where all students, staff, and community members feel welcome, respected, and safe. Using the Code of Conduct: Rights and Responsibilities handbook ensures we maintain consistent expectations throughout the district.

Every person in our district, whether a student, family member, teacher, administrator, staff member or community partner, has a very important role to play in providing a positive environment for all students. The Code of Conduct: Rights and Responsibilities handbook clearly defines the expectations that we, as a community, value and observe.

Please review this Code of Conduct: Rights and Responsibilities handbook with your student(s). You can find a video of the Code of Conduct: Rights and Responsibilities handbook on our website: www.isd742.org under the Families tab.

742 Together!

Sincerely,

Laurie Putnam, Ed.D.

District 742's Systems of Support

The St. Cloud Area School District School Climate Framework, which is centered on a mission to create a safe and caring climate and culture in which we engage, inspire, educate, prepare and empower all learners in partnership with their surrounding community to be successful in today's and tomorrow's society.

Within School Climate, the district uses evidence-based strategies to support positive student development. Some of these strategies include [Positive Behavior Interventions and Supports \(PBIS\)](#), [Social Emotional Learning Competencies \(SEL\)](#), [Conscious Discipline](#), and [Restorative Practices](#).

St. Cloud Area Schools uses a 3-tiered system of academic and behavioral supports called Multi-Tiered Systems of Support (MTSS). Tier 1 Behavioral MTSS focuses on prevention of problem behaviors by teaching expected behaviors, acknowledging the use of expected behaviors, and using data to drive decision making and improve student outcomes. Tier 2 and Tier 3 add additional evidence-based interventions and resources to support students by proactively teaching skills and supporting the transfer of these skills into identified challenge areas for students.

District-wide supports include Student Support Rooms which are staffed with Behavior Resource Specialists. These staff create a calming environment and establish proactive break plans for identified students with parent permission, as well as push-in classroom support. Administrators can assign any student who has been removed from class to the Support Room for support.

Tier 3—Intensive Individualized

Approximately 0-5% of Students

Tier 3 is effective if there is progress (i.e., gap is closing, decrease in frequency, intensity, duration of behaviors that interfere with learning)

Tier 2—Supplemental/Target

Approximately 15-20% of Students

Tier 2 is effective if at least 70-80% of students receiving intervention improve performance (i.e., gap is closing towards benchmark, decrease in frequency of behaviors that interfere with learning)

Tier 1—Core Instruction/Core Prevention

All Students

Tier 1 is effective if 80-85% of students respond to core instruction (i.e., meet benchmark assessments with only access to the core and demonstrate school wide behavioral expectations)

Standards of Student Behavior

A safe and positive learning environment is essential. Modeling district's expectations and procedures will support students in making positive choices. Students will be held accountable for their actions. When students do not follow district expectations, school staff members will respond.

This section of the handbook identifies the five levels of behavior infractions with examples of supports, interventions and responses. These guidelines describe the various actions that may be taken when a behavior infraction occurs.

Interventions and responses will be used within the general guidelines of the five levels of the behavior matrix. Level one is the least severe and level five is the most severe. The format of this section includes the behavior infractions, their definitions, and the levels of each behavior. The dots in the matrix denote the level of behavior infractions but do not indicate which response will be taken at the administrative level. There shall be a direct relationship between the severity and frequency of the behavior. School administrators will inform the parent/guardian of any student whose behavior is in serious conflict with established expectations. School staff, students and their families are responsible for working collaboratively to support the expectations outlined in this Code of Conduct.

Unless otherwise noted, these policies apply to student behavior occurring on any property owned or controlled by District 742, occurring in connection with any activity sponsored by or associated with District 742 or off school premises to the extent that it substantially and materially disrupts student learning or the school environment.

Level Four

Behavior Definition

A level four behavior is a major behavior infraction that significantly disrupts the educational setting, targets others, and/or impacts the safety of others and is distinguishable by its repetitiveness and/or severity. A level four behavior results in an Office Discipline Referral (ODR), may result in dismissal from school for one or more days, and may result in notification to law enforcement.

Level Four Behavior Interventions and Responses

1. Review and consider a student’s IEP or 504 Plan prior to implementing interventions and responses.
2. Select and implement interventions and responses that maintain the continuity of instruction or are least disruptive.
3. Consider use of interventions from prior levels and multiple categories.
4. Communicate with parents/guardians about the behaviors and interventions.
5. Document behavior in Skyward.

Discipline Processes

All disciplinary actions will be processed pursuant to District 742’s discipline policies, the requirements of the [Minnesota Pupil Fair Dismissal Act](#) and other applicable law.

- School staff will use support, responses and interventions in the Code of Conduct to respond to behavior infractions.
- Juvenile or criminal proceedings or consequences against the student do not preclude the school district from disciplining the student for violations of the Rights and Responsibilities Handbook or for other misconduct.
- Any student who violates a policy that has a potential consequence of suspension from school for more than one school day shall have an informal conference with a school administrator.
- If a student’s total days of removal from school exceeds ten cumulative days in a school year, the school district shall make reasonable attempts to convene a meeting with the student and the student’s parent or guardian before subsequently removing the student from school.
- All students who violate a policy or rule that has the potential consequence of expulsion or exclusion will be given the opportunity to have a hearing in accordance with Minnesota law.
- See the [Minnesota State High School League Official Handbook](#) to determine the impact of administrative actions on student eligibility and participation in Minnesota State High School League activities.

Alternative Educational Services Procedures

When students are removed from class because of a behavior infraction, school staff must provide missed assignments and the opportunity to make up those assignments in a reasonable amount of time without penalty. * Students with Individualized Education Programs (IEPs) and 504 Plans have additional protections.

If a student is suspended, the suspending administrator must notify the assistant superintendent and the executive director of Student Services/Special Education. If a student is suspended for more than five school days, the student is entitled to alternative educational services that will allow the student to progress toward meeting graduation requirements and the suspending administrator must provide the superintendent with a reason for the longer suspension. Generally, District 742 provides alternative educational services according to the following schedule:

Length of Suspension	Services Provided	School Administrator or Designee Responsibility	Parent/Guardian Responsibility
Up to five school days	Current classroom work and homework will be made available, if possible	Ensure homework is picked up or sent electronically	Pick up classroom homework from school, ensure student received it electronically, or arrange to have it mailed to home Return/submit completed work upon student’s return to school
Six to 10 school days*	Current classroom work and homework will be made available as soon as possible and no later than the sixth school day of suspension	Ensure homework is picked up or sent electronically	Pick up classroom homework from school, ensure student received it electronically, or arrange to have it mailed to home Make sure student returns/submits completed work to school
Up to 15 school days (only pending expulsion, consideration of administrative transfer, or when student constitutes a substantial and immediate danger)*	Alternative education services must be arranged to begin no later than the 11th school day	Arrange for alternative education services as soon as a determination has been made to refer student for expulsion or transfer	Assist school administrator in establishing a schedule for the delivery of alternative education services

This schedule does not preclude school administrators from providing different alternative educational services that allow the student to progress toward meeting graduation requirements. Each suspension action may include a readmission plan. The readmission plan shall include, where appropriate, a provision for implementing alternative educational services upon readmission and may not be used to extend the current suspension.

The school administrator is responsible for ensuring that the school attempts to provide required alternative educational services. Families also have the responsibilities set forth above. Parents who have concerns about the school’s compliance with these procedures should contact the school administrator or assistant superintendent promptly.

Additional information related to special education students: District 742 may have additional obligations to special education students that are not explained here. For more information about the rights of special education students, see the [Notice of Procedural Safeguards – Parent Rights for Special Education](#) or contact the school administrator, your student’s case manager, or the Executive Director of Student Services/Special Education at 320-370-8083.

Students with a Section 504 Plan

Students covered by Section 504 of the Rehabilitation Act of 1973 may be disciplined for behavior related to their disabilities unless the discipline would result in a significant change of placement. A qualified student with a disability may not be suspended for more than ten cumulative school days without a manifestation determination conducted by the student’s 504 team.

Students with an Individualized Education Program (IEP)

When a student with a disability is dismissed (denial of the current educational program to any student, including exclusion, expulsion and suspension) for more than ten (10) days in a school year, is being considered for a 45-day unilateral placement, or before initiating any expulsion or exclusion, relevant members of the child’s IEP team and the child’s parent shall, consistent with federal law, conduct a manifestation determination meeting. The manifestation determination meeting must be held within ten (10) school days of the dismissal. The team will determine if the behavior is related to the student’s disability. The team may need to conduct a Functional Behavior Assessment and write a behavior intervention plan to support the student at school.

A dismissal for one school day or less is a day of suspension if the student with a disability does not receive regular or special education instruction during that dismissal period. A student with a disability shall be provided alternative educational services to the extent a suspension exceeds five consecutive school days.

Consistent with federal law, before initiating an expulsion or exclusion, the district, relevant members of the student’s IEP team, and the student’s parent shall determine whether the student’s behavior was caused by or had a direct and substantial relationship to the student’s disability and whether the student’s conduct was a direct result of a failure to implement the student’s IEP. When a student with a disability who has an IEP is excluded or expelled for misbehavior that is not a manifestation of the student’s disability, the district shall continue to provide special education and related services during the exclusion or expulsion. **Minn. Stat. § 121A.43**

** In-school suspension is not considered a day of suspension for a student with a disability as long as the student continues to receive regular and special education services during the in-school suspension.

*** If bus transportation is a part of the student’s IEP, a bus suspension would be treated as a removal unless the school provides transportation in some other way, because that transportation is necessary for the student to obtain access to the location where all other services will be delivered. If bus transportation is not a part of the student’s IEP, a bus suspension typically would not be a removal.
